Introduction

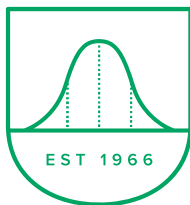

Find Your Match is the yearly speed date event for Master students to find their thesis internship. On January 30, 10 companies will join us to find new interns and starters. This is a unique opportunity to find a thesis internship!

Students will select several companies they want to speak to and will also let us know which master specialisation they do. Using this information, we will make sure to match students and companies as well as possible.

Companies have 18 dates of around seven minutes with different students such that they can see whether there is a match. Afterwards, there will be a drink during which you can talk to the companies you thought were the most interesting.

The event will take place between 13:30 and 18:30 at the Hilton Hotel in Rotterdam. You will hear before 23 January 2023 which time slots have been allocated to you.

Subscriptions are open until 21 January 23:59.

FAECTOR

ABN AMRO (NL/EN)

Are you socially skilled, curious and interested in financial markets? Have you always wanted to work on the largest trading floor in continental Europe? Do you want to work on the best deals for our clients and guide them in the complex world of financial instruments? As a starter within the Markets department at ABN AMRO, you are interested in what is happening in the world, the financial markets, and how this affects our clients, our products and the bank itself.

Why markets?

Markets is at the heart of ABN AMRO. We support our clients in buying and selling financial products and services, such as derivatives or currencies. We also assist clients with an IPO or the issuance of bonds. We carry out transactions for our clients from our offices in Amsterdam, New York, Frankfurt, London, and Paris.

The internship

As a thesis intern, you are tasked with the challenge to assist our quantitative team in extending and improving all of the frameworks we implement to interpret the market and offer competitive prices to our clients. This includes developing new ideas to meet the continuously changing demands of our clients. Through the internship, you have the possibility to learn more about fixed income, trading, sales, derivatives, foreign exchange, bonds, equity capital markets, debt capital markets, and what it requires to keep a dealing room running at a high level.

Working environment

Working at ABN AMRO means becoming even better at what you do. We understand our clients, translate their ambitions into joint successes and earn their trust. We want our clients to understand our products. That's why we sometimes say 'no' when we are not comfortable with a client taking on a certain level of risk. Banking is our profession, the world is our challenge.

Equal opportunities for all

We think it is important that everyone can develop his or her qualities so that every colleague feels involved and valued. An interplay of cultures, knowledge and experience provides surprising insights and innovative solutions. Diversity is therefore extremely important to our organisation.

BexerHamstra (NL)

Deskundig, pragmatisch en altijd op zoek naar de eenvoudige oplossing. Dat is BexerHamstra ten voeten uit. Onze adviezen zijn helder en relevant, en altijd gericht op het verbeteren van de business. We maken zaken niet onnodig ingewikkeld, maar denken graag samen met de klant mee over hoe we snel en innovatief tot een antwoord kunnen komen. We focussen daarbij altijd op effect en resultaat.

We doen dit door gebruik te maken van de enorme hoeveelheid kennis en ervaring van onze consultants, in onze organisatie en in ons netwerk. We zijn zowel mens- als datagedreven. Daarbij zijn we bepaald 'niet van gisteren' als het gaat om het bieden van advies rondom belonings- en organisatievraagstukken. We kennen dit vakgebied, in al zijn facetten, van binnen en van buiten. Zo helpen wij mee aan het realiseren van de organisatiestrategie.

BexerHamstra werkt zowel voor grote internationale organisaties met de bijhorende grensoverschrijdende vraagstukken, als voor kleinere en startende ondernemingen. Dit alles met de missie bij te dragen aan een wereld waarin mens en organisatie volledig in hun kracht staan.

Cefetra (NL/EN)

Who we are

The Cefetra Group consists of various agricultural and food ingredients trading and supply chain management companies, with leading brands within the ingredients business. Collectively we employ over 600 people across 35 offices in 20 countries around the world. We work closely together to guarantee the best possible service to our customers. We develop supply chains with suppliers and create value by sourcing raw materials and supplying those to the international food and feed industry. Cefetra Group is part of the German BayWa group of companies.

Our business

We offer high-quality raw materials for the feed, food and fuel industries. Through our network of different suppliers, we are able to supply more than 50 different raw materials and ingredients. With our knowledge of the origin and our fast experience in this business, we monitor every product to make sure that we supply the best quality.

Every day, we deal with numbers, data and other financial figures to support our business and our customers. As data is the primary driver for us in making trading decisions, we have set up 100+ data pipelines and manage databases with billions of datapoints.

Our colleagues from Finance, Risk, Treasury, Quant and Market Analysis make sure we maintain the overview and drive the business forward. Because we want the best for People, Planet, and Profit we welcome colleagues and interns that have a keen eye for detail and love working with data whilst improving the service offered to our customers.

Interns at Cefetra

As an intern at Cefetra you will for sure have an entrepreneurial mindset. You like working on different subjects with colleagues from other departments or disciplines in order to get the best results for our clients and therefore for our company. Colleagues at Cefetra have often finished a study in Economics, Econometrics or Supply Chain. And obviously you like working with data, for instance when you are looking at the extra costs of lower water in Germany or when you check the temperatures or the drought in the areas the crops are growing.

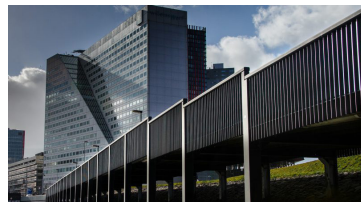

Would you like to know more about our business and our company?

Feel free to visit our website [Home | Cefetra](#)

Any questions about internships or thesis-projects at Cefetra? Please contact Jur Lemmers our Talent Acquisition Partner via +31 6 2520 3984 or hr@cefetra.nl.

Cefetra

A BayWa Company

Dassault Systèmes (NL/EN)

Welcome to the world of Dassault Systèmes, where innovation thrives and 23,000 passionate minds unite worldwide. Our company's heartbeat resonates with the vibrant energy of creativity and collaboration, driven by a robust R&D force spanning 43 cutting-edge laboratories. This powerhouse team crafts the very essence of 'combined software,' the cornerstone of our groundbreaking 3DEXPERIENCE Solutions.

As pioneers in our field, boasting the largest PLM market share, we proudly serve 230,000 customers across 11 diverse industries worldwide. At Dassault Systèmes, we're not just a company, we're trailblazers, shaping the future of technology.

Join our journey, where every line of code, every idea, shapes the course of innovation. Embrace the opportunity to be part of something extraordinary—a world where aspirations meet cutting-edge technology.

At Dassault Systèmes, we're not just inviting talent; we're creating a community—a diverse, vibrant collective passionate about redefining industries and pushing boundaries. We invite you to unleash your potential with us, to innovate, create, and revolutionize the world.

DNB (NL/EN)

Make a difference at the heart of our economy

Looking for a work placement or just graduated? De Nederlandsche Bank (DNB) could be your next step. Work with us on confidence and financial stability. For example, by supervising financial institutions, so people can continue to safely borrow and save money. And to make sure pensions are paid out.

Culture

You must know us for being professional and business-minded. And with good reason. We take our responsibilities very seriously and work together closely both nationally and internationally. What you might not know is that everyone who works at DNB is very proud of their work, and that the atmosphere is relaxed and informal. You will fit in well with us if you feel at home with people who are committed, open, dependable and alert, and who express these qualities in who they are and what they do.

Make a difference

We care just as much about what you can do and who you are. In your own way, you can make the difference at the heart of our economy. From the outset you will be given a lot of responsibilities, and will work at the cutting edge. You may be working on monetary policy, learning how financial markets function and contributing to supervision of financial institutions. You will start work immediately on international projects. You will develop rapidly. You can also choose the direction you want to develop in. You can take part in a wide range of training programmes offered by the DNB Academy, and within the European System of Central Banks.

Interest

Do you have an affinity with economics and the financial sector, and are you socially engaged? Are you for example studying economics, econometrics, law, political science, international relations, organisational psychology, mathematics or physics? Do you combine this with commitment, creativity and drive? In that case you should definitely think about one of our internships, entry-level positions or traineeships.

More information

For more information please contact Naomi Okoto or Robin Pape, campus recruiters, at campusrecruitment@dnb.nl. Visit werkenbijdnb.nl to learn more about our events and to apply for our internships, traineeships and vacancies.

EUROSYSTEEM

Gibbs (NL)

Gibbs is een analytics consultancybureau uit Rotterdam. We helpen ambitieuze organisaties vooruit. Strategisch en concreet, zonder poeha.

Dat doen we door hun processen en besluiten datagedreven te maken, zodat informatie over klanten en processen optimaal wordt benut. Veel van onze projecten gaan over het optimaliseren van marketingstrategieën, het doen van prognoses en het vinden van kostenbesparingen.

We doen projecten in uiteenlopende sectoren, voor opdrachtgevers als bol.com, KPN, Olympia en het CBR. Wij werken in kleine teams aan projecten die meestal enkele maanden duren. We werken veel op locatie bij onze opdrachtgevers en in nauwe samenwerking met hen.

Mogelijkheden

Werken bij Gibbs betekent verder een werkplek-met-uitzicht op de Coolsingel, uitgebreide lunches, gezellige borrels, gezamenlijke uitjes en inspirerende kennissessies. We bieden elk jaar een aantal stageplekken in de vorm van een duo-stage. Verder heeft Gibbs jaarlijks ongeveer 2 starters.

Gibbs biedt duo-stages aan voor studenten die hun master econometrie willen afronden met een praktische afstudeerstage. Je gaat aan de slag met een case voor een van onze klanten onder onze begeleiding. Je werkt afwisselend op kantoor bij Gibbs en bij de klant. Hierdoor krijg je als masterstudent econometrie de kans om kennis te maken met analytics consultancy. Onder begeleiding van een van onze (senior) consultants doorloop je in zes maanden een compleet adviestraject – van het allereerste gesprek tot en met de eindpresentatie bij de opdrachtgever.

Als junior analytics consultant bij Gibbs werk je in teams aan opdrachten voor uiteenlopende organisaties. Je werkt zowel op locatie als bij Gibbs. In je eerste twee jaar volg je het interne opleidingsprogramma. In diverse opleidingsmodules, cursussen en in de projecten ontwikkel je de verschillende vaardigheden die je als analytics consultant nodig hebt.

Lukt het niet om ons te spreken bij Find Your Match maar lijkt het je wel leuk om ons te leren kennen, neem dan vooral contact met ons op.

Lynxx (NL)

Lynxx is een data-analyse bureau met kantoren in Amersfoort en Sydney. Lynxx is gespecialiseerd in data-analyse voor bedrijven in de sector van logistiek en mobiliteit en bevindt zich al meer dan een decennium midden in het Nederlandse en internationale Openbaar Vervoer-landschap. Zo analyseerde en visualiseerde Lynxx onder meer OV-chipkaartdata voor GVB, ontwikkelde het vele dashboards voor ProRail en verzorgde de netwerkanalyses voor GoAhead bij verschillende internationale biedingen. De afgelopen jaren ligt de nadruk vooral op het maken van voorspellende modellen (Machine Learning) en operationele modellen (o.a. Operations Research modellen). Ook is er in de nasleep van de coronaperiode veel behoefte aan voorspellingen hoe het gedrag van reizigers zich ontwikkelt nu veel bedrijven hybride werkvormen hebben aangenomen. De markt van data is volop in beweging en Lynxx groeit hierin mee.

De samenwerking met het kantoor in Sydney is hierbij zeer waardevol omdat Lynxx zo in staat is wereldwijd de markt te bedienen. Om deze samenwerking sterk te houden, werken de Nederlandse en Australische collega's samen aan innovatieprojecten en houden ze gezamenlijke kennissessies. Ook kunnen de Nederlandse Lynxx collega's als ze dit willen voor korte of langere tijd in Sydney werken.

Bij Lynxx krijgen mensen veel vrijheid die gepaard gaat met veel verantwoordelijkheid. Je krijgt de ruimte om je te ontwikkelen in vaardigheden die jij interessant en belangrijk vindt. Dat kan betekenen dat je vooral de inhoud ingaat en aan de technisch meest complexe projecten werkt. Of dat je leert projecten te leiden of hele nieuwe projecten opstart. Binnen Lynxx volgt iedereen zijn eigen pad, dat past bij de capaciteiten en interesses van de unieke persoon. Hiervoor is een grote mate van vertrouwen nodig, dat wordt gecreëerd door veel te investeren in het team met teamuitjes, heisessies en een jaarlijkse ski trip. Maar ook door met elkaar te blijven nadenken over innovaties en veel aan kennisdeling te doen. Het is bij Lynxx ook mogelijk om een opleiding te volgen bij de beste universiteiten van de wereld, zoals Stanford en Harvard. Hierdoor blijft Lynxx vooroplopen in de markt en blijft het bedrijf zich onderscheiden.

NN Group (NL/EN)

You matter

At NN, our purpose is to help people care for what matters most to them. We put our resources, expertise, and networks to use for the well-being of our customers, the advancement of our communities, the preservation of our planet, and for the promotion of a stable, inclusive, and sustainable economy.

The world in which we live may change, but what really matters to people remains the same. Family, friends, love, health, home and work. Work is an important part of life. But you are more than just a colleague and that is something we understand very well at NN. Developing skills and competencies is not just the preserve of the world of work. You take something from all your roles in life. That is what makes everyone different. At NN we believe that differences are what make us better and that by bringing a set of unique talents and perspectives to the table, you contribute to what really matters. It is no coincidence that 'You matter' is our promise to you. You matter, in all the roles you play because what is important to you is also important to us.

An internship that matters

An internship is an excellent opportunity to discover what matters most in your future career and in your personal development. If you are looking for a challenging internship in a diverse organization that puts people at the heart of what it does, NN offers opportunities for work experience or graduate internships where you are treated as a full member of the team. We have regular internships at senior secondary vocational education level (mbo), higher professional education level (hbo) and university level (wo) in various business units, such as IT, marketing, HR, Finance, Risk, Investments or a secretarial or administrative internship.

NN Group Traineeship - our future leaders

At NN, we help people care for what matters most to them. We do this by offering personal and relevant financial services. As a trainee at NN, you will contribute to this and help our company move forward in becoming ever more relevant to our customers. Your ideas matter because we are on the lookout for real future leaders.

PGGM (NL/EN)

Who are we?

PGGM is one of the largest asset managers and pension fund service providers in the world. We provide services in the field of integral asset management, pension management, communications, and executive advice to a range of pension funds, affiliated employers and their employees. Currently, we manage pension assets worth in excess of €220 billion for a range of clients and their 4.4 million participants.

The desire that we share with our clients is for their participants to enjoy a good pension in a sustainable, liveable world. This is why we want to achieve good returns with our investments and at the same time have an impact on creating a sustainable world. As true professionals in the pension sector, with deep roots in the healthcare sector, and as a cooperative financial institution with no profit motive, we look towards the future with an open and broad vision.

Working at PGGM

Working at PGGM means working at an highly professional and leading company. We offer a professional working environment with many opportunities to develop yourself. High ambition and a great capacity for innovation are distinctive for PGGM. Teamwork, sharing knowledge and independence are highly valued. PGGM values an open and honest culture with respect for people and environment and offer you work that matters.

What's in it for you?

For more information, have a look at our career website – www.pggm.nl/werken-bij - to see which job and internship positions we offer. Or contact Meryem el Ajjouri - Campus Recruiter (meryem.el.ajjouri@pggm.nl or 06 - 51064717) to discuss any career opportunities.

Politie (NL)

Politiemensen staan midden in de maatschappij en is daar waar het gebeurt. De Nationale Politie is de grootste overheidsorganisatie van Nederland met ruim 65.000 medewerkers. De bedrijfsvoering, verenigd in het Politiedienstencentrum (PDC) met meer dan 10.000 medewerkers, ondersteunt het operationele politiewerk 24/7. De dienst Informatievoorziening (IV) is één van de zes diensten van het PDC.

Een complex krachtenveld

In onze maatschappij is sprake van een enorme dynamiek, waarbij de omstandigheden waarin de politie opereert telkenmale veranderen. Nieuwe criminaliteitsvormen dienen zich aan zoals ondermijning, radicalisering en cybercrime. Dit vraagt van de politie een constante flexibele houding om hierop in te spelen. Met de ontwikkeling van digitalisering is het niet anders. De techniek van vandaag, is morgen alweer achterhaald. Kortom, technologie ontwikkelt zich razendsnel en de politie moet we hierop dagelijks kunnen inspelen.

Dienst Informatievoorziening

De juistheid van informatie en goed werkende ICT-systemen zijn cruciaal voor iedere politiemedewerker. Er werken > 2500 medewerkers binnen de IV-organisatie om ervoor te zorgen dat het werk op straat wordt ondersteund met de juiste data op het juiste moment. Het IV-management staat voor de uitdaging om adequaat te sturen en te beslissen in deze veranderende omgeving. Hiertoe dient zij te beschikken over managementdata om de juiste afwegingen te kunnen maken.

De IV Control Room is het onderdeel waar deze managementinformatie integraal beschikbaar is en wordt gezien als de gecentraliseerde Single Point of Truth. Hierbinnen wordt de gepresenteerde data geanalyseerd, verrijkt met inzichten en worden eventuele risico's onder de aandacht van het management gebracht. Het behoort tot de ambitie om niet meer met rapportages te werken, maar op basis van dashboards om real-time inzicht te verkrijgen over KPI's met als doel actie te ondernemen.

Hierom zijn we op zoek naar studenten die in staat zijn modellen te bouwen waaruit aansprekende data gedestilleerd kan worden. De IV-organisatie biedt op haar beurt studenten de kans om achter de schermen van de grootste overheidsorganisatie van Nederland te kijken. Daarnaast zijn er ook veel mogelijkheden om een 'Blauwe ervaring' op te doen. Dit betekent meegaan met een noodhulpdienst, ME-oefening of als figurant. Dan ervaar je pas echt waarvoor je werkt!

Zanders (NL/EN)

Zanders is a global independent treasury and risk finance consulting firm with almost 30 years of experience in providing innovative solutions to multinational corporations, financial institutions, public sector entities, funds and NGOs. The company specializes in treasury strategy and optimization, technology selection and implementation, financial and non-financial risk management, risk modelling, validations and regulatory compliance, debt advisory and have developed its own suite of innovative SaaS solutions. The company has grown strongly to become a leading global independent treasury and risk consulting firm with about 300 employees across ten offices in Europe, Middle East, United States and Asia.

Our company's core values are freedom, fun, and collaboration, which guide everything we do. We prioritize building strong relationships with clients, understanding their challenges, and working together to maximize success.

Moreover, our entrepreneurial culture extends beyond our client work. We actively encourage and support our employees' entrepreneurial endeavours, whether it is exploring new business opportunities, developing innovative solutions, or contributing to thought leadership. We create an environment for you to cultivate your entrepreneurial mindset, take calculated risks, and turn your ideas into reality.

Additionally, Zanders is committed to environmental, social and governance (ESG) principles and practices, and supports its clients in achieving these goals. We also believe that diversity, equity, and inclusion (DE&I) are essential to building a strong, sustainable business and are committed to fostering a culture that values and respects diversity in all forms.

If you are a self-starter/(recent) graduate that wants to be part of a consultancy firm that embraces entrepreneurship, fun, diversity, responsibility and innovation, Zanders is the place for you! Join us in redefining the boundaries of finance and unleashing your potential. Visit our website at <https://career.zanders.eu/> to explore the exciting career opportunities and learn more about how you can become an integral part of our entrepreneurial journey. Together, let us make a difference and drive the future of finance!

Do you see yourself starting your career at Zanders as either Consultant, Analyst or Thesis Intern? Then contact our recruiter or view our career website for the possibilities! Stephanie Buah | recruitment@zandersgroup.com
